I understand if I receive pension benefits for the summer months and I don't return to school as a full-time student at an accredited school in the fall, I will be charged an overpayment for any pension benefits paid during the summer and fall months. To avoid an overpayment I understand I must notify the department immediately if my status as a full-time student changes or if I am put in jail or prison or enlist in the military.

You are entitled to receive pension benefits in your own name up to age 23 if you are enrolled in an accredited school as a full-time student. Payments will be sent to you once a month when the department receives notice you are attending school full time.

Payments will continue in the summer months if you:

- Attend school full time during the summer quarter; OR
- You are a full-time student in the spring and plan to attend school full time in the fall, AND
- Complete and return to the department the “Letter of Intent for School Enrollment” form on the other side.

If you don’t attend school full time in the fall payments will stop and you must pay back the money you received during the summer.
